

2011 Model and Full Scale Testing Award

Physical testing as part of the design process

The Institution's Model and Full Scale Testing Award looks to promote the use of physical testing as part of the design process.

If you are conducting and analysing structural tests as part of your final year undergraduate project or as a first year postgraduate then you are eligible to enter!

All eligible entries will receive a short appraisal even if they are not awarded a prize.

First prize is £300 with additional prizes for possible runner-up and commendations!

How to Enter

Entries need to be made through your project supervisor.

Logon to www.istructe.org/modeltestingaward to download the *Notice of Intention* form and read the rules of entry. Please make sure we have this back by **27 May 2011** if you intend to enter.

Report submissions of no more than 30 pages are required by **1 July 2011**.
