

MSc Research Grants - Application for projects starting in 2015/2016 academic year

All applications for MSc Research Grants must be made using this form. Please fill out the form electronically.

Reference (for official use only):

How to submit an application

This application form must be completed in English and submitted electronically by **Friday 13 November 2015**.

The form does not need signing and should be emailed to Berenice Chan (berenice.chan@istructe.org) or by clicking the 'Send form' button at the end of this form.

Please acknowledge the conditions of this grant by completing the boxes at the end of this form.

Supervisor's details

Full name:

Title:

Position:

Postal address:

Telephone number:

Email:

Students details, if known at this stage

Full name:

Title:

Email:

Project details

Title:

Are you addressing one of our research themes? (details on website). Yes No

If so which one: Construction materials Loading on buildings

Aims of research (100 words maximum):

Description of method (300 words maximum):

Benefits to structural engineering (100 words maximum):

Duration Proposed start date (mm/yy): Proposed finish date (mm/yy): Full time Yes No

Total Grant Sum requested
(max grant is £500 with £200 being awarded to the student and up to a further £300 being awarded for project costs):

Project Costs to be covered by grant (The max sum is £300. Please provide a breakdown of costs which can include: equipment, consumables and software licences):

Conditions

In the event of being awarded a grant, I, the supervisor, agree to:

- details of the project's aims, description and benefits appearing on the Institution's website with my contact details
- provide supervision for the aforementioned project
- select a suitable student to undertake the project and notify the Institution who will undertake the project and when
- ensure the student submits a copy of the full project report, an A1 poster (highlighting the main features of the project) and an executive summary of 200 - 300 words (relating, where possible, the project's outputs to practice or further research required) within two months of completing the project
- the student's executive summary appearing on the Institution's website with my contact details

and I confirm that the university will make suitable resources available for the successful execution of the project.

Please enter your name below to confirm you have read and accept the conditions above.

Name::	Date

Please note: The grant is awarded to a named supervisor for a specific project as detailed on the application form. Grants are thus not transferable to other supervisors or projects. Any changes in circumstances that would affect the undertaking of the proposed project should be made known to Berenice Chan (berenice.chan@istructe.org) at the Institution of Structural Engineers at the earliest opportunity.
