# EEFIT

## Earthquake Engineering Field Investigation Team

---

Join EEFIT and

- survey the aftermath of earthquake events worldwide
- provide engineering interpretation of events and disseminate findings to the research community, policymakers and reconstruction stakeholders
- learn from experienced engineers and support your training as an earthquake engineer
- draw lessons to the attention of the engineering community

Join EEFIT and

make a difference to how we understand the impact of earthquakes

**Full-time students join free**
