

## INDEX - VOLUME 85, 2007

### AUTHOR INDEX

AUTHOR	TITLE	ISSUE	PAGE
<b>A</b>			
Ahmadi-Kashani, K	The construction of Votonosi Bridge, Greece	18	39
Alonso, T	The quality of design within the built environment	23/24	49
Architectural Cladding Association	Understanding precast design	23/24	20
Armstrong, Wendy	Educating future engineers	7	28
Aro, Tuija	Drake Circus: beam system forms centre's wide spaces	21	24
<b>B</b>			
Bailey, C G	Design concept for a novel long span composite floor system	21	38
	The quality of design within the built environment	23/24	49
Barrett, Nick	Structural design benefits sustainability	9	25
Baxter, Pete	Creating time to experiment with design	3	25
Beal, Alasdair N	Thomas Young and the theory of structures 1807-2007	23/24	43
Beg, M Faisal	Dealing with blast loading on brickwork	19	35
Begg, P	Timber cantilevered staircases	17	36
Bell, Brian	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Bellamy, John	Lateral restraints to masonry walls: a stiffness study [Viewpoint]	3	14
Bolton, Chris	Nuclear power station design [Technical update]	15	31
Brady, Malcolm	Aerial display: RAF Museum at Cosford	8	18
Brereton, Allan	Spreading the word amongst young members [Report: Young members' panel]	7	15
Brett, David	Marketing unmasked: getting your message across [Viewpoint]	10	15
	Marketing unmasked part2: bringing in the work [Viewpoint]	16	18
Bright, S R	A new design for steel bridge decks using laser fabrication	21	49

Brun, C	The construction of Votonosi Bridge, Greece	18	39
Buck, Sarah	Creating a children's hospice	11	16
	IStructE, our centenary and beyond: attract, support, enthuse [Presidential Address]	19	43
	Welcome on board engineering technicians [Viewpoint]	6	13
Buckby, Roger	The construction of the New Rewa River Bridge, Nausori, Fiji	10	24
Buckton, Cliff	The re-orientation of Wembley Arena [North Thames Branch supplement]	1	33
Burdette, Nick	Bridge engineering: turning problems into possibilities [Kenneth Severn Award 2007 winner]	16	28
Byrne, Paul	The Quadrangle, Middlesex University: new life for an old space	11	24
<b>C</b>			
Carfrae, Tristram	Geometry and structure - the benefit of the third dimension	4	27
Carpenter, John	Making the most of an opportunity: CDM 2007 [Viewpoint]	15	15
Carr, Jonathan	Design and construction of the Kingston Communications Stadium, Hull	8	28
	Experimental dynamic analysis of the Kingston Communications Stadium	8	33
Cartz, Jean-Philippe	Building high-rise modular homes [North Thames Branch supplement]	1	20
Chambers, Ian	Using specialist programs to model building designs	3	20
Chan, Berenice	Looking for help in testing or research? Here's how to find an academic [Research update]	7	16
Chan, Kenneth	What can consulting engineers do to reduce PII premiums? [Viewpoint]	2	15
Chan, Pak-wing Eric	Refurbishment of Kom Tong Hall as Dr Sun Yat-sen Museum [Hong Kong Division branch paper]	20	31
Chapman, Tim	Idea Store Whitechapel - (Re)designing for Crossrail	11	37
Charrington, John	Spotlight on North Thames Branch [North Thames Branch supplement]	1	16
Chen, Xianchuan	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]22		27
Clarke, Anthony	Skyways Project, Liverpool - restoration and conversion of a lamella roof military aircraft hangar [Structural award paper]	11	32
Clifton, Geoff	Dean's Eye Window - the reconstruction of a medieval rose window at Lincoln Cathedral	3	40
Cook, Mike	Pyramid for peace in Kazakhstan	2	13
Cooper, Martin	New City of London landmarks	18	24
	Weathering steel for Kent road bridges	5	13
Coopmans, Catelijne	Digital tools, complex projects and playful		

	engineering [Research update]	13	16
Corbett, Peter J	Michael Tippett school: innovation in structural timber	17	20
Croll, James	Serviceability design of columns [Technical note]	3	28
Crosby, Mark	Building high-rise modular homes [North Thames Branch supplement]	1	20
	Panel update on health and safety issues	15	26
<b>D</b>			
Da Silva, Jo	Idea Store Whitechapel - (Re)designing for Crossrail	11	37
	Quality and standards in post-disaster shelter	14	25
Daniell, Wendy	Beyond Brunel: creative design for the future [Report: schools event]	19	12
Davies, Sam	Capturing the cream of the market [Viewpoint]	14	16
Denton, S	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
	Shear enhancement at short shear spans in EN1992	23/24	37
Dias, W P S	Engineering as cyclic problem solving - some insights from Karl Popper	2	32
Durvik, Patrik	Software licensing strategy [Viewpoint]	21	21
<b>E</b>			
Eatherley, Michael	Aerial display: RAF Museum at Cosford	8	18
Eddis, Russell	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Egan, Derek	The ground - how structural engineers can manage the risk [Viewpoint]	22	16
Elghazouli, Ahmed	Seismic design of steel structures to Eurocode 8	12	26
Emeny, William	Engineering for everyone [Report: young members]	10	20
Essam, Mark	The construction of the New Rewa River Bridge, Nausori, Fiji	10	24
Evans, Keith	When software means business	13	22
Eyre, John	Membrane action in thickness design for ground slabs [North Thames Branch supplement]	1	29
	Serviceability design of columns [Technical note]	3	28
<b>F</b>			
Feenan, Gerry	Structural precast for car parks	23/24	27
Fegan, Peter	Educating future engineers	7	28
Fisher, Al	Structural engineers and non-structural software [Technical note]	13	30
Fitzgerald, Brian	Recruitment: fighting the war for talent	7	32
Fu, Xueyi	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]	22	27

**G**

Gardner, Peter	Computing in structural engineering [Report: study group]	3	18
Georgopoulos, Costas	Concrete research is 'needs driven' (Report on Concrete Communications Symposium 2007) [Research update]	23/24	24
Gilbertson, Alan	Management of structures: meeting client's needs	19	16
Glanville Consultants	All change for waterfront	18	20
Glover, Sarah	Idea Store Whitechapel - (Re)designing for Crossrail	11	37
Greaves, Deborah	Structural engineers and non-structural software [Technical note]	13	30
Green, Mick	Advanced fire engineering of structures: a new guide from IStructE	19	22
Gu, Lei	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]	22	27
<b>H</b>			
Harvey, Bill	Questioning the responsibilities of an engineer [Viewpoint]	2	20
Harvey, David	Moving the Institution forward [Report: President's year]	18	13
Haynes, B Jonathan	Dealing with blast loading on brickwork	19	35
Hicks, Stephen	Strength and ductility of headed stud connectors welded in modern profiled sheeting	10	32
Hoang, Kien	The appeal of bridge engineering [Kenneth Severn Award 2007 commended paper]	16	31
Huang, Jia	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
Hudson, Roly	Structural engineers and non-structural software [Technical note]	13	30
<b>I</b>			
IStructE	IStructE Structural Awards '07: winners and commendations	22	[66p Suppl.]
IStructE Examinations Panel	Chartered membership 2007 - question 1 [Structural news]	13	5
	Exams corner	7	37
Ibell, T J	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
Ichimaru, Yoshikazu	Nesciobrug, Amsterdam	5	22
Irvine, Max	Collapse 9/11 - formulae for tall buildings [Technical note]	2	18
<b>J</b>			
Jackson, Paul	Shear enhancement at short shear spans in EN1992	23/24	37
Johnson, K A L	The quality of design within the built environment	23/24	49
<b>K</b>			
Kara, Hanif	Design and construction of the Phaeno Science Centre, Wolfsburg, Germany	14	33

Karden, Andreas	Educating future engineers	7	28
Ke, Chang-Hua	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
	National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35
Keliris, George	Pyramid for peace in Kazakhstan	2	13
Killa, Shaun	Bahrain World Trade Center gets a touch of wind	9	13
Kwan, K K	Hong Kong Division: an overview [Hong Kong Division supplement]	20	24
<b>L</b>			
Lam, Dennis	Strengthening of metallic structures using externally bonded FRP composite [Research update]	6	15
Lay, Simon	Fire safety for high-rise facades [Practice note]	19	30
Lerner, Nick	Changing the rules of design Clear vision with 3D software	13 13	26 20
Leung, Man-kit	The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	38
Liddell, Martin	Strengthening a fragile c14 flint church tower	11	26
Little, Gordon	Collapse of tall buildings - simple dynamic analysis [Technical note]	19	26
Liu, Kin-ming	The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	38
Locke, Joe	A ductile material in a brittle industry [Gold Medal Address 2007]	12	32
Logan, Rufus	UK Government support for structural engineering [Research update]	4	13
Lovering, Ian	Concrete cladding panels: prestressed v precast [Viewpoint]	18	30
Low, Angus	Nesciobrug, Amsterdam	5	22
<b>M</b>			
Ma, Koon-yiu	The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	38
McDermott, Rodney	Educating future engineers	7	28
McFarlane, Angus	High-strength concrete columns: a design guide	6	31
Macfarlane, Tim	Glass structures	1	41
McGill, Olivia	Developing skills through disaster relief work	7	18
McIver, Audrey	Ontario Tower, New Providence Wharf	6	18
MacLeod, Iain A	Structural engineering competence in the computer era	3	35
Mann, Allan	Nuclear power station design [Technical update]	15	31

Marsh, Bryan	Conference paper: One Coleman Street - a case study in the use of secondary materials in concrete	9	35
Matthews, Lisa	Structural engineers and non-structural software [Technical note]	13	30
Maunder, Edward	Computer modelling in three research projects [Research update]	18	31
May, Ian	United we stand, divided we fall [Viewpoint]	22	13
Miller, Andrew	BIM for all in construction	13	34
Miller, F R	Design concept for a novel long span composite floor system	21	38
Miltsakakis, C	The construction of Votonosi Bridge, Greece	18	39
Moores, Gareth	Concrete's sustainable agenda	23/24	30
Moseley, Ed	Logging natural history	17	32
<b>O</b>			
Obata, Morio	Vibration control effects and application example of tuned rotary damped mass damper	13	41
Orzechowski, M A	The quality of design within the built environment	23/24	49
<b>P</b>			
Page, Arnold	EC5: using the new code [Technical update]	17	27
Papanikolas, P	The construction of Votonosi Bridge, Greece	18	39
Patel, Andy	The green roof challenge [Technical note]	9	29
Pavic, Aleksandar	Experimental dynamic analysis of the Kingston Communications Stadium	8	33
Penford, Alan	Michael Tippett school: innovation in structural timber	17	20
Phillips, David	The construction of the New Rewa River Bridge, Nausori, Fiji	10	24
Pocock, Graham	Mansion block becomes offices	18	26
Postawa, Les	Preparing for take-off: designing the new terminal buildings at Madrid Barajas Airport, Spain	7	39
Powderham, Alan	Nuclear power station design [Technical update]	15	31
<b>Q</b>			
Qin, Kai	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
	National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35
Quinion, David	Nuclear power station design [Technical update]	15	31
<b>R</b>			
Reeder, Kevin	The re-orientation of Wembley Arena [North Thames Branch supplement]	1	33
Reid, Gordon	Designer / HSE liaison	15	26
Rentzeperis, I	The construction of Votonosi Bridge, Greece	18	39

Reynolds, Paul	Design and construction of the Kingston Communications Stadium, Hull	8	28
	Experimental dynamic analysis of the Kingston Communications Stadium	8	33
Rieder, Rob	How relevant is IStructE to young members? [Report on Western Counties Branch young members group debate]	7	13
Roddick, J G	Safeguarding professional integrity [Viewpoint]	15	22
Rogatzki, Paul	Building the EcoHouse TM	20	14
Russell, Lisa	Technician grade increases attraction of IStructE	17	15
<b>S</b>			
Sahabandu, Ruwan	The construction of the New Rewa River Bridge, Nausori, Fiji	10	24
Salim, Stephen	Shear enhancement at short shear spans in EN1992	23/24	37
Scott, Paul	Design and construction of the Phaeno Science Centre, Wolfsburg, Germany	14	33
Scott, Peter	United we stand, divided we fall [Viewpoint]	22	13
Shave, J D	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
	Shear enhancement at short shear spans in EN1992	23/24	37
Shaw, Chris	Cover to reinforcement - getting it right	4	31
Shimazaki, Yoji	Vibration control effects and application example of tuned rotary damped mass damper	13	41
Silman, Robert	Sustainable engineering - a philosophical perspective	9	38
Sindel, Rob	GGBS: a sustainable solution for concrete [Technical note]	9	22
Smith, Andrew	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Smith, J W	A new design for steel bridge decks using laser fabrication	21	49
Smith, Richard	Bahrain World Trade Center gets a touch of wind	9	13
Soane, Alastair	CROSS spotlight on failures	15	20
Stansfield, Kathy	Celebrating innovation [Report: New York]	1	13
	Homes fit for the future [Report: Offsite '07]	14	14
	The Structural Engineer Awards [Report]	12	15
	We need you to move the world, research engineers told [Conference: young researchers]	7	23
<b>T</b>			
Thomas, David	Personal equipment for protection against falls - fundamental principles	4	16
Tietz, Stefan	CDM 2007: some issues for discussion [Viewpoint]	15	24
Toplis, Paul	Quality in ready mixed concrete - how is it achieved? [Viewpoint]	23/24	32
Torp Petersen, Gordon	Idea Store Whitechapel - (Re)designing for Crossrail	11	37

Trujillo, David	Bamboo structures in Colombia	6	25
Tsang, Neil	Research in structural engineering at Imperial College London [North Thames Branch supplement]	1	23
Tsebas, V	The construction of Votonosi Bridge, Greece	18	39
<b>U</b>			
Utsunomiya, T	Pontoon-type very large floating structures [Research update]	16	15
<b>V</b>			
Virlogeux, Michel	Great engineers [James Sutherland History Lecture]	2	25
Vaghela, Rajesh	Making an entrance [North Thames Branch supplement]	1	18
Veale, John	Preparing for take-off: designing the new terminal buildings at Madrid Barajas Airport, Spain	7	39
<b>W</b>			
Wadee, Ahmer	Research in structural engineering at Imperial College London [North Thames Branch supplement]	1	23
Walter, Mike	Celtic Gateway bridge helps regenerate Holyhead	5	15
Wang, C M	Pontoon-type very large floating structures [Research update]	16	15
Wang, Chunhua	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
Wang, Guoqing	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
Wang, Yi	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement] National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35
White Young Green	Cumbria's new eco-centre	17	24
Whitfield, Steve	Hot v. cold formed hollow sections [Technical note]	21	32
Whyte, Jennifer	Digital tools, complex projects and playful engineering [Research update]	13	16
Williams, Chris	Structural engineers and non-structural software [Technical note]	13	30
Willis, Gary	Dean's Eye Window - the reconstruction of a medieval rose window at Lincoln Cathedral	3	40
Wilson, Graham	The Quadrangle, Middlesex University: new life for an old space	11	24
Wiscombe, Philip	Pont King Morgan	5	18
Wong, Chi-tong	Refurbishment of Kom Tong Hall as Dr Sun Yat-sen Museum [Hong Kong Division branch paper] The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	31
		20	38

Wong, Y L	Reinforced high strength concrete under the influence of fire [Technical note]	12	19
<b>Y</b>			
Yang, Qin	National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35
Yang, Xianqiao	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]	22	27
Yu, Weijiang	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]	22	27
<b>Z</b>			
Zhang, Ailin	Olympic Badminton Arena: cable supported dome (Technical note) [Beijing Olympics 2008 special supplement]	22	23
Zhong, Fan	Design of large-span steel structures for the National Stadium, Beijing [Beijing Olympics 2008 special supplement]	22	41
Zhu, Zhong-Yi	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
	National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35

## INDEX - VOLUME 85, 2007

### SUBJECT INDEX

 [Suppl.] = Supplement

<u>KEYWORDS</u>	<u>TITLE</u>	<u>ISSUE</u>	<u>PAGE</u>
<b>A</b>			
A2/A282 Junction, Kent	Weathering steel for Kent road bridges	5	13
Abutments	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Academics	Educating future engineers	7	28
	Looking for help in testing or research? Here's how to find an academic [Research update]	7	16
Accidents	CDM 2007: some issues for discussion [Viewpoint]	15	24
	Safeguarding professional integrity [Viewpoint]	15	22
Achray Bridge, Queen Elizabeth Forest Park, Perthshire, Scotland	IStructE Structural Awards '07: winners and commendations	22	62 [Suppl.]
Adnams Distribution Centre, Southwold, Suffolk	IStructE Structural Awards '07: winners and commendations	22	56 [Suppl.]
Advertising	Marketing unmasked: getting your message across [Viewpoint]	10	15
Aesthetics	The appeal of bridge engineering [Kenneth Severn Award 2007 commended paper]	16	31
Afghanistan	Commonwealth scholarships. Poverty and sustainable development: links to advanced academic study	16	21
Aggregates	Concrete's sustainable agenda	23/24	30
	Conference paper: One Coleman Street - a case study in the use of secondary materials in concrete	9	35

	Hong Kong Special Awards 2007 [Hong Kong Division supplement]	20	26
AGR Programme	Nuclear power station design [Technical update]	15	31
Aircraft	Aerial display: RAF Museum at Cosford	8	18
	Collapse 9/11 - formulae for tall buildings [Technical note]	2	18
Airports	A ductile material in a brittle industry [Gold Medal Address 2007]	12	32
	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
	Preparing for take-off: designing the new terminal buildings at Madrid Barajas Airport, Spain	7	39
	Preparing for take off : designing the new terminal buildings at Madrid Barajas Airport, Spain [Discussion Online]	14	7 [Online]
Al-Rajhi Bank HQ, Riyadh, Saudi Arabia	Changing the rules of design	13	26
Albion Wharf, Ipswich, Suffolk	All change for waterfront	18	20
Amesbury, Wiltshire	Innovations in rammed earth structures [Discussion Online]	3	23 [Online]
Ammann, Othmar H	Great engineers [James Sutherland History Lecture]	2	25
Anchorage	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
	Why did Palau Bridge collapse? [Correspondence Online]	3	5 [Online]
Applications	Commonwealth scholarships. Poverty and sustainable development: links to advanced academic study	16	21
Appraising	Dealing with blast loading on brickwork	19	35
	Management of structures: meeting client's needs	19	16
	Refurbishment of Kom Tong Hall as Dr Sun Yat-sen Museum [Hong Kong Division branch paper]	20	31
	The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	38
	Timber cantilevered staircases	17	36
Arches	Celtic Gateway bridge helps regenerate Holyhead	5	15
	Thomas Young and the theory of structures 1807-2007	23/24	43

Architects	Changing the rules of design	13	26
Architecture	Poised between gravity and levity [Discussion Online]	22	12 [Online]
Arenas	Olympic Badminton Arena: cable supported dome (Technical note) [Beijing Olympics 2008 special supplement]	22	23
	The re-orientation of Wembley Arena [North Thames Branch supplement]	1	33
Arlington Business Park, Theale, Berkshire	Concrete cladding panels: prestressed v precast [Viewpoint]	18	30
Arrowhead Quay, London	Fire safety for high-rise facades [Practice note]	19	30
Arsenal Football Club, London	IStructE Structural Awards '07: winners and commendations	22	44 [Suppl.]
Arts Centres	China Awards 2007 [Hong Kong Division supplement]	20	28
	Understanding precast design	23/24	20
Arup	Developing skills through disaster relief work	7	18
	Shaping a better world [North Thames Branch supplement]	1	22
AS4100	Serviceability design of columns [Correspondence Online]	14	4 [Online]
Ashmead, Martin	Questioning the responsibilities of an engineer [Viewpoint]	2	20
Atkins	Recruitment: fighting the war for talent	7	32
Atria	Gridshell covers courtyard formed by historic buildings	4	20
	IStructE Structural Awards '07: winners and commendations	22	32 [Suppl.]
	Making an entrance [North Thames Branch supplement]	1	18
Auckland War Memorial Museum, New Zealand	IStructE Structural Awards '07: winners and commendations	22	50 [Suppl.]
Aurora Place, Sydney, Australia	Geometry and structure - the benefit of the third dimension	4	27
Australia	High strength steel use in Australia, Japan and the US (Rowen Travel Award paper) [Discussion Online]	14	9 [Online]

	Innovations in rammed earth structures [Discussion Online]	3	23 [Online]
AutoCAD	Scaling new heights	20	19
Autodesk	Software licensing strategy [Viewpoint]	21	21
Awards	China Awards 2007 [Hong Kong Division supplement]	20	28
	Hong Kong Special Awards 2007 [Hong Kong Division supplement]	20	26
	IStructE People Awards [Report]	12	18
	The Structural Engineer Awards [Report]	12	15
	We need you to move the world, research engineers told [Conference: young researchers]	7	23
<b>B</b>			
Badminton Arena, Beijing University of Technology, China	Olympic Badminton Arena: cable supported dome (Technical note) [Beijing Olympics 2008 special supplement]	22	23
Bahrain World Trade Center, Manama, Bahrain	Bahrain World Trade Center gets a touch of wind	9	13
Balanced Cantilever Construction	The construction of Votonosi Bridge, Greece	18	39
Bamboo	Bamboo structures in Colombia	6	25
	Bamboo structures in Colombia [Correspondence Online]	22	7 [Online]
Barajas Airport, Madrid, Spain	Preparing for take-off: designing the new terminal buildings at Madrid Barajas Airport, Spain	7	39
	Preparing for take off : designing the new terminal buildings at Madrid Barajas Airport, Spain [Discussion Online]	14	7 [Online]
Barnhalt Bridge, Carrickfergus, Northern Ireland	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Barns	Creating a children's hospice	11	16
Basements	Hong Kong Special Awards 2007 [Hong Kong Division supplement]	20	26
	Ontario Tower, New Providence Wharf	6	18
Baskerville House, Birmingham	IStructE Structural Awards '07: winners and commendations	22	18 [Suppl.]
Battlements	Strengthening a fragile c14 flint church tower	11	26

BD44/95	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
Beams	Drake Circus: beam system forms centre's wide spaces	21	24
	High strength steel use in Australia, Japan and the US (Rowen Travel Award paper) [Discussion Online]	14	9 [Online]
	Mansion block becomes offices	18	26
	Research in structural engineering at Imperial College London [North Thames Branch supplement]	1	23
	Strength and ductility of headed stud connectors welded in modern profiled sheeting	10	32
	Thomas Young and the theory of structures 1807-2007	23/24	43
Bearing Capacity	Enhanced ground bearing under reinforced soil abutments [Technical note]	5	26
Beetham Tower, Manchester	Fire safety for high-rise facades [Practice note]	19	30
Beijing Airport, China	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
Beijing National Swimming Centre, Beijing, China	Beijing Olympic National Swimming Centre: structural design [Beijing Olympics 2008 special supplement]	22	27
	Geometry and structure - the benefit of the third dimension	4	27
Beijing Olympic Stadium, Beijing, China	Design of large-span steel structures for the National Stadium, Beijing [Beijing Olympics 2008 special supplement]	22	41
Belfast Adventure Learning Park, Barnett Demesne, Nr Belfast, Northern Ireland	Scaling new heights	20	19
Biographies	A ductile material in a brittle industry [Gold Medal Address 2007]	12	32
	Great engineers [James Sutherland History Lecture]	2	25
	IStructE, our centenary and beyond: attract, support, enthuse [Presidential Address]	19	43
	Thomas Young and the theory of structures 1807-2007	23/24	43
201 Bishopsgate, London	New City of London landmarks	18	24
Bison	Drake Circus: beam system forms centre's wide spaces	21	24
Blackpool	GGBS: a sustainable solution for concrete [Technical note]	9	22

Blackwall Tunnel	Ontario Tower, New Providence Wharf	6	18
Blake Pier Pavilion, Hong Kong	The Blake Pier pavilion: just a memory? [Hong Kong Division supplement]	20	38
Blast Loading	Dealing with blast loading on brickwork	19	35
	Research in structural engineering at Imperial College London [North Thames Branch supplement]	1	23
Blastfurnace Slag	GGBS: a sustainable solution for concrete [Technical note]	9	22
Bracing	New City of London landmarks	18	24
The Brickpit Ring, Homebush Bay, New South Wales, Australia	Geometry and structure - the benefit of the third dimension	4	27
Brickwork	Building the EcoHouse TM	20	14
	Dealing with blast loading on brickwork	19	35
Bridges	A new design for steel bridge decks using laser fabrication	21	49
	Bridge engineering: turning problems into possibilities [Kenneth Severn Award 2007 winner]	16	28
	Geometry and structure - the benefit of the third dimension	4	27
	Great engineers [James Sutherland History Lecture]	2	25
	IStructE Structural Awards '07: winners and commendations	22	24 [Suppl.]
	Poised between gravity and levity [Discussion Online]	22	12 [Online]
	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
	Shear enhancement at short shear spans in EN1992	23/24	37
	Strengthening of metallic structures using externally bonded FRP composite [Research update]	6	15
	The appeal of bridge engineering [Kenneth Severn Award 2007 commended paper]	16	31
	The construction of Votonosi Bridge, Greece	18	39
	The Eurocodes: why? what? when? [Briefing No.6]	16	13
	The Eurocodes: why? what? when? [Briefing No.9]	23/24	18
Why did Palau Bridge collapse? [Correspondence Online]	3	5 [Online]	
Brunel, I K	Great engineers [James Sutherland History Lecture]	2	25

	Educating future engineers	7	28
	GGBS: a sustainable solution for concrete [Technical note]	9	22
	Genesis Centre is a revelation	9	18
	Homes fit for the future [Report: Offsite '07]	14	14
	IStructE Structural Awards '07: winners and commendations	22	56 [Suppl.]
	Michael Tippett school: innovation in structural timber	17	20
	Structural design benefits sustainability	9	25
Sustainable engineering - a philosophical perspective	9	38	
Swimming Pools	Beijing Olympic National Swimming Centre: structural design Beijing Olympics 2008 special supplement]	22	27
	Geometry and structure - the benefit of the third dimension	4	27
	The re-orientation of Wembley Arena [North Thames Branch supplement]	1	33

## I

Technician Engineers	IStructE launches Technician Member grade [Structural news]	5	5
	Technician grade increases attraction of IStructE	17	15
	Welcome on board engineering technicians [Viewpoint]	6	13
Technology	Sustainable engineering - a philosophical perspective	9	38
Tekdek System	Design concept for a novel long span composite floor system	21	38
Telescope, Mauna Kea Observatory, Hawaii	A ductile material in a brittle industry [Gold Medal Address 2007]	12	32
Telford, Thomas	Great engineers [James Sutherland History Lecture]	2	25
Terminal Buildings	Beijing International Airport Terminal 3: steel roof (Technical note) [Beijing Olympics 2008 special supplement]	22	25
	Preparing for take-off: designing the new terminal buildings at Madrid Barajas Airport, Spain	7	39
	Preparing for take off : designing the new terminal buildings at Madrid Barajas Airport, Spain [Discussion Online]	14	7 [Online]
Testing	Aerial display: RAF Museum at Cosford	8	18
	Bamboo structures in Colombia [Correspondence Online]	22	7 [Online]
	Experimental dynamic analysis of the Kingston Communications Stadium	8	33
	Glass structures [Discussion Online]	22	14 [Online]
	Looking for help in testing or research? Here's how to find an academic [Research update]	7	16
	Shear assessment of reinforced concrete bridges with short anchorage lengths	5	30
	Strength and ductility of headed stud connectors welded in modern profiled sheeting	10	32
	Vibration control effects and application example of tuned rotary damped mass damper	13	41
Thames Valley University	Building high-rise modular homes [North Thames Branch supplement]	1	20
Thermal Mass	Building the EcoHouse TM	20	14
Thin Walled Sections	Computer modelling in three research projects [Research update]	18	31
Three Pacific Place, Hong Kong	China Awards 2007 [Hong Kong Division supplement]	20	28
Ticket Halls	IStructE Structural Awards '07: winners and commendations	22	22 [Suppl.]

Ties	Cover to reinforcement - getting it right	4	31
	Strengthening a fragile c14 flint church tower	11	26
Timber	Creating a children's hospice	11	16
	Cumbria's new eco-centre	17	24
	Developments in light steel composites in floors and roofs [Correspondence Online]	22	5 [Online]
	EC5: using the new code [Technical update]	17	27
	Genesis Centre is a revelation	9	18
	IStructE Structural Awards '07: winners and commendations	22	10 [Suppl.]
	Making an entrance [North Thames Branch supplement]	1	18
	Michael Tippett school: innovation in structural timber	17	20
	The Eurocodes: why? what? when? [Briefing No.4]	11	14
Timber cantilevered staircases	17	36	
Tongji University, Shanghai, China	China Awards 2007 [Hong Kong Division supplement]	20	28
	IStructE Structural Awards '07: winners and commendations	22	36 [Suppl.]
Torque	Timber cantilevered staircases	17	36
Toughening	Glass structures	1	41
Towers	Bahrain World Trade Center gets a touch of wind	9	13
	Changing the rules of design	13	26
	Strengthening a fragile c14 flint church tower	11	26
Trusses	Design of large-span steel structures for the National Stadium, Beijing [Beijing Olympics 2008 special supplement]	22	41
	National Gymnasium, Beijing Olympics: structural design of the roof [Beijing Olympics 2008 special supplement]	22	35
	Winter garden roof challenge	14	18
Tsunamis	Developing skills through disaster relief work	7	18
	Tsumami - planning and design for disaster mitigation [Discussion Online]	6	9 [Online]
Tubes	Pyramid for peace in Kazakhstan	2	13

Tuned Mass Dampers	Vibration control effects and application example of tuned rotary damped mass damper	13	41
Tunnels	Idea Store Whitechapel - (Re)designing for Crossrail	11	37
	Scaling new heights	20	19
Turning The Place Over, Liverpool	Turning the place over [rotating sculpture]	14	20
<b><u>U</u></b>			
Uganda	Developing skills through disaster relief work	7	18
Underpinning	Creating a children's hospice	11	16
United Kingdom	Capturing the cream of the market [Viewpoint]	14	16
	Construction demand fuelled by schools programme	7	26
	EC5: using the new code [Technical update]	17	27
	Nuclear power station design [Technical update]	15	31
	The quality of design within the built environment	23/24	49
	UK Government support for structural engineering [Research update]	4	13
Universities	Building high-rise modular homes [North Thames Branch supplement]	1	20
	China Awards 2007 [Hong Kong Division supplement]	20	28
	Concrete research is 'needs driven' (Report on Concrete Communications Symposium 2007) [Research update]	23/24	24
	Educating future engineers	7	28
	IStructE Structural Awards '07: winners and commendations	22	36 [Suppl.]
	Making an entrance [North Thames Branch supplement]	1	18
	Poised between gravity and levity [Discussion Online]	22	12 [Online]
	The Quadrangle, Middlesex University: new life for an old space	11	24
University of Bristol	Beyond Brunel: creative design for the future [Report: schools event]	19	12
University of Exeter	Engineering for everyone [Report: young members]	10	20
University of Oxford	Structural design benefits sustainability	9	25
University of Phoenix Stadium, Arizona, USA	IStructE Structural Awards '07: winners and commendations	22	46 [Suppl.]

University of Ulster	Educating future engineers	7	28
USA	Seismic design of steel structures to Eurocode 8 [Correspondence Online]	22	9 [Online]
<b><u>V</u></b>			
Vessels	Assisting oil exploration	21	27
	Research in structural engineering at Imperial College London [North Thames Branch supplement]	1	23
Viaducts	IStructE Structural Awards '07: winners and commendations	22	28 [Suppl.]
Vibration	Experimental dynamic analysis of the Kingston Communications Stadium	8	33
	Vibration control effects and application example of tuned rotary damped mass damper	13	41
Vibroflotation	Creating a children's hospice	11	16
Vierendeel Trusses	The Scottish Parliament, Holyrood building [Discussion Online]	3	12 [Online]
Visitor Centres	Hong Kong Special Awards 2007 [Hong Kong Division supplement]	20	26
	IStructE Structural Awards '07: winners and commendations	22	10 [Suppl.]
Visits	Designer / HSE liaison	15	26
Votonosi Bridge, Greece	The Construction of Votonosi Bridge, Greece	18	39
<b><u>W</u></b>			
Wadi Abdoun Bridge, Amman, Jordan	IStructE Structural Awards '07: winners and commendations	22	30 [Suppl.]
Waffle Floors	Design and construction of the Phaeno Science Centre, Wolfsburg, Germany	14	33
Walkways	Geometry and structure - the benefit of the third dimension	4	27
Walls	Building the EcoHouse TM	20	14
	Lateral restraints to masonry walls: a stiffness study [Viewpoint]	3	14
	Mansion block becomes offices	18	26
