

**THE STRUCTURAL ENGINEER**  
**INDEX – VOLUME 88, 2010**  
**AUTHOR INDEX**

<b><u>AUTHOR</u></b>	<b><u>TITLE</u></b>	<b><u>ISSUE</u></b>	<b><u>PAGE</u></b>
<b><u>A</u></b>			
Ahluwalia, Billy	Design and construction of Wembley Stadium Station Footbridge	5	12
Akid, R	Biotic sol-gel coating for the inhibition of marine corrosion and biofouling [Young Researchers' Conference 2010]	21	21
Alexander, Stuart	Designing buildings for the second time around [Viewpoint]	4	15
Ansell, Martin	Experimental performance of non-metallic mechanically fastened timber connections	17	25
Avent, Jon	Raising the profile of conservation [Report]	11	13
Azagra, Dancho	Searching for the right form - the role of structural engineers in the design of two complex-geometry buildings in Madrid	13	28
<b><u>B</u></b>			
Bailey, C G	The safety of common steel beam/column connections in fire	21	26
Baker, William F	Engineering an idea [Gold Medal Address 2010]	10	20
Banfi, Mike	Amendment to BS5950-3.1 [Technical update]	7	16
Beattie, Alan	Lightweight aggregates	23/24	14
Bernabeu Larena, Alejandro	Searching for the right form - the role of structural engineers in the design of two complex-geometry buildings in Madrid	13	28
Bignell, Thomas	The collaboration of engineers and architects in design [Educational Trust Essay Prize]	19	18
Borchers, Meike	Importance of structural engineering in sustainable and low carbon design [Technical note]	9	14
Bradford, Sarah	Saving and rebuilding lives	4	12
Bramwell, Alan	An employer's perspective [CPD briefing]	6	14
Burgess, I W	The safety of common steel beam/column connections in fire	21	26
Burridge, Jenny	Embodied CO2 in construction	18	10
Bussell, M N	Robustness and the relevance of Ronan Point today	23/24	20
<b><u>C</u></b>			
Calil, Carlito, Jr.	Development of timber-concrete composite bridge decks in Brazil	5	26

Carpenter, John	Risk management with ERIC [Technical briefing]	7	20
Clarke, Rob	Role of the structural engineer in demolition	11	28
Clemmetsen, Nils	Designing a modern control tower	14	11
Corbett, Peter John	Combining sustainability and innovation at Harlow Carr	9	17
Cornett, Andrew	Ukraine health protection centre	3	13
<b>D</b>			
Dai, X H	The safety of common steel beam/column connections 21 in fire		26
Darby, A P	Shear design of circular concrete sections using the Eurocode 2 truss model	23/24	26
Davison, J B	The safety of common steel beam/column connections 21 in fire		26
Denton, S R	Shear design of circular concrete sections using the Eurocode 2 truss model	23/24	26
Desai, Satish	Collapse - of another kind [Viewpoint]	6	18
Ding, Jiemin	Structural analysis and design of the Theme Pavilion of World Expo 2010	10	15
<b>E</b>			
Edwards, Alex	The structural design of One Shelley Street, Sydney [Australia Division special issue]	20	18
El-Dardiry, Emad	Determining the dynamic characteristics of multi-panel floors	18	18
El Sarraf, Raed	Design for durable structural steelwork in New Zealand	19	28
Eley, Damian	Unilever's 'flying carpets'	4	22
Elliott, Ian	Constrained sites - an innovative solution for mixed-use developments [Technical note]	14	14
Ellis, Brian R	Determining the dynamic characteristics of multi-panel floors	18	18
Elvin, A	Automated structural design and optimisation	15	30
<b>F</b>			
Farmer, Ian	Lessons from destruction [Report]	2	14
Firth, Ian	Lessons from history - the steel box girder story [James Sutherland History Lecture]	5	18
Fisher, Michael	Barracks becomes housing	2	19
<b>G</b>			
Ganasalingam, Krishna Kumar	Design and construction of Wembley Stadium Station Footbridge	5	12
Gibson, Richard	CPD: competencies [CPD briefing]	15-16	19
Gilbert, Matthew	Soil structure revolution [Technical note]	3	18
Gittens, Jeanette	Biotic sol-gel coating for the inhibition of marine corrosion and biofouling [Young Researchers' Conference 2010]	21	21

Greenfield, D	Biotic sol-gel coating for the inhibition of marine corrosion and biofouling [Young Researchers' Conference 2010]	21	21
Gudmundsson, G V	The 'sudden column loss' idealisation for disproportionate collapse assessment	6	22
<b>H</b>			
Hairsine, Robert C	Simplified 3D analysis of portal structures - observations, problems and solutions	3	25
Harris, Peter	Cracks and leaks in basements [Technical briefing]	6	15
	Underpinning to foundations [Technical briefing]	1	20
Harris, Richard	Experimental performance of non-metallic mechanically fastened timber connections	17	25
Harvey, David	A global snapshot [CPD briefing]	10	12
He, Zhijun	Structural analysis and design of the Theme Pavilion of World Expo 2010	10	15
Hewitt, John	The structural design of One Shelley Street, Sydney [Australia Division special issue]	20	18
Ho, Kwong Meng	Precast prestressed concrete spun piles for wharf structures (Technical note) [Singapore Division supplement]	12	22
Ho, Peter	Institution of Structural Engineers - Australia Division [Australia Division special issue]	20	10
<b>I</b>			
Ibell, Tim	Learning structural engineering [Viewpoint]	8	17
	Shear design of circular concrete sections using the Eurocode 2 truss model	23/24	26
IStructE Research Panel	Structural information survey - the results [Research Update]	19	10
IStructE Sustainable Construction Panel	CHP: a guide for structural engineers [Sustainability Briefing No.10]	9	12
	Carbon trading [Sustainability Briefing No.12]	18	13
	Recycled and secondary aggregates in concrete [Sustainability Briefing No.11]	15-16	12
	Responsible sourcing [Sustainability Briefing No.9]	6	12
	The Copenhagen Accord [Sustainability Briefing No.8]	2	10
Izzuddin, B A	The 'sudden column loss' idealisation for disproportionate collapse assessment	6	22
<b>J</b>			
Jensen, Frank	The Danish Cancer Centre, Aarhus	8	14
Jewell, Simon Anthony	Going for green - the search for a green design for a striking new building for Curtin University's engineering department	9	28
Ji, Tianjian	Determining the dynamic characteristics of multi-panel floors	18	18
Jones, A E K	Robustness and the relevance of Ronan Point today	23/24	20
Jupp, Julie	Promoting teamwork and sustainable design (Interdisciplinary Design for the Built Environment (IDBE) Masters Programme) [Report]	2	16

**K**

Kotsovos, Gerasimos M	A new approach to designing reinforcement to resist punching shear	8	20
Kotsovos, Michael D	A new approach to designing reinforcement to resist punching shear	8	20
Kruger, Erhard	Saving a doomed reservoir	11	22
<b><u>L</u></b>			
Lancashire, Robin	Achieving 'thermal comfort' in timber frame buildings	17	19
Lee, S H	Pan Pacific serviced suites at Somerset Road, Singapore [Singapore Division supplement]	12	18
Leong, M S	Pan Pacific serviced suites at Somerset Road, Singapore [Singapore Division supplement]	12	18
Lim, P H	Pan Pacific serviced suites at Somerset Road, Singapore [Singapore Division supplement]	12	18
<b><u>M</u></b>			
Macabuag, Joshua	Seismic reinforcement of adobe in rural Peru [2009 Pai Lin Li travel award]	23/24	35
McKittrick, Bob	Engaging structural engineers - a guide for clients [Viewpoint]	22	12
	The UK Anti-Corruption Forum	21	12
Macmillan, Donald	St Mary's Cathedral, Perth [Australia Division special issue]	20	14
Macmillan, Sebastian	Promoting teamwork and sustainable design (Interdisciplinary Design for the Built Environment (IDBE) Masters Programme) [Report]	2	16
Macpherson, Allan	A tall order	15-16	14
Mandeno, Willie L	Design for durable structural steelwork in New Zealand	19	28
Marais, Harold	Design and construction of Wembley Stadium Station Footbridge	5	12
Marshall, Will	Optimising structural fire resistance	21	16
Masinsky, Vladimir	Ukraine health protection centre	3	13
Mawson, Barry	CPD without courses [CPD briefing]	8	10
Molina, Julio Cesar	Development of timber-concrete composite bridge decks in Brazil	5	26
Morris, Thomas	Constrained sites - an innovative solution for mixed-use developments [Technical note]	14	14
Mostert, Marelize	Saving a doomed reservoir	11	22
<b><u>O</u></b>			
Orr, J J	Shear design of circular concrete sections using the Eurocode 2 truss model	23/24	26
