

People and Papers Awards

Congratulations to all the winners of the Institution's People and Papers Awards 2020 and 2021. Both sets of awards were presented at a ceremony held at BMA House in London on Tuesday 21 September, following the postponement of last year's ceremony due to Covid-19.

The People and Papers Awards recognise outstanding contributions to structural engineering and to the Institution's work, through innovative education initiatives, papers published in *The Structural Engineer* and *Structures*, lectures, regional group activity, and much more. They cover the whole range of Institution life, from outstanding young professionals to those recognised for a lifetime of achievement and service.

This year's winners are given below. For a list of 2020 winners, see the July 2020 issue of *The Structural Engineer*.

PAPERS AWARDS
