

People and Papers Awards 2020

Congratulations to all the winners of the Institution's People and Papers Awards 2020.

The Awards recognise outstanding contributions to structural engineering and to the Institution's work, through innovative educational initiatives, papers published in *The Structural Engineer*, lectures, regional group activity, and much more.

They cover the whole range of Institution life, from outstanding young professionals to those recognised for a lifetime of achievement and service.

Unfortunately, this year's Awards ceremony has been postponed due to the Covid-19 pandemic. Winners will instead be invited to attend the 2021 ceremony and luncheon.

PAPERS AWARDS

Murray Buxton Award

Dmitri Jajich and Stuart Marsh
'Manhattan Loft Gardens, London: balancing design and constructability'

Guthrie Brown Award

Cameron Millar
'Design of the world's first sprayed-net, hyperboloid, lattice ice structure'

Derrington Construction Award

Medal: *Malcolm Turpin and Andrew Rolf*
'The King's Health Partners Cancer Centre at Guy's Hospital, London'

AWARDS FOR YOUNG ENGINEERS

Young Structural Engineering Professional Award

Winners:
Eleanor Davies
Miguel Martinez-Paneda

Commendation: *Victoria Tinney*

Kenneth Severn Award

Winner: *William Rogers-Tizard*

Commendation: *Eugenie Sentucc*

Pai Lin Li Travel Grant

Euan Stenson
Victoria Stephenson
Annie Scott

PEOPLE AWARDS

Service Award

Po Jen Helen Kwan
Paul Alexander Burrell
Brendan John Edward Brophy
Richard Newby Gibson
Jeslin May Lian Quek

Lewis Kent Award

Leroy Gardner
Richard David Nicholl
Christopher John O'Regan
Sarah Joanne Williamson

Keith Eaton International Award

Glenn Bell

Lifetime Achievement Award

Paul Leslie Anthony Wilson
Matthew Lowry Manson

Oscar Faber Award

Medal: *Angus Law*
'Fire safety design: we need to talk about timber'

Diploma: *Kaare K.B. Dahl*
'Taking precast concrete to the limit'

Sir Arnold Waters Medal

Chris Shaw
'Averting disaster: How to save a collapsing building'

EDUCATION AWARD

Excellence in Structural Education

Engineering Award
Jonathan Haynes
'Formative assessment that bites'

Diploma: *Ron Slade, Ross Harvey, Nello Petrioli and Matthew Sharratt*
'The principles behind Principal Tower – a new residential tower in central London'

Husband Prize

Simon Bourne
'An introduction to bridges for structural engineers (Parts 1 and 2)'

Clancy Prize

Allan Mann
'Safety of hanging systems: lessons from CROSS reports'
